KELLY'S

Book of Bargains

*The best to be had at the
most reasonable prices*

Kelly Bros. Nurseries

DANVILLE, N. Y.

1938

IMPORTANT INFORMATION

ORDER EARLY—As soon as this Catalog reaches you send in your complete order with definite shipping instructions. We will then set the trees aside for you awaiting the desired shipping time. If you prefer you can leave the time of shipment to us and we will ship so as to reach you at the best time for planting in your locality.

USE ORDER SHEET—Please make your order out on order sheet enclosed. To avoid mistakes and delay write letters on a separate sheet of paper.

SEND CASH WITH ORDER—Please do not ask us for credit. It is our cash with order—direct from nursery to planter—method of doing business that enables us to sell trees of the highest quality at such extremely low prices. Remittances should be made by post office or express money order, bank draft or registered letter. To large buyers, when satisfactory reference is given, we will ship C. O. D. provided one-fourth the amount of order is sent in cash when order is placed.

BOXING AND PACKING FREE—We make no charge for boxing or packing. Prices are f. o. b. cars at Dansville.

QUANTITY RATES—Less than ten trees at each rates. Ten to fifty trees at ten rates. Fifty trees or more at hundred rates.

PLANTING SEASON—Trees can be planted any time during their dormant period. We ship all Winter to Southern states, but our regular Spring shipping season opens about the first of March and continues well into June. Fall planting season begins about Oct. 15th and extends until ground freezes solid.

SATISFACTION GUARANTEED—We guarantee every tree or bush to be up to grade specified or better. We also guarantee arrival to customer in first class condition. If through delay or mishandling in transit, trees or bushes are not in first class condition on arrival, and customers will notify us immediately, we will make prompt and satisfactory adjustment.

HOW TREES ARE GRADED—Our trees are graded in accordance with the Grading Table of the Horticultural Standards of the American Association of Nurserymen. Fruit trees are graded by age and caliper. Caliper taken 2 inches above the collar or bud. When height is given it represents the average height of the grade under normal conditions.

See illustration on opposite page.

TO OUR CUSTOMERS

We wish to take this opportunity to express our appreciation to you for the very nice orders that you have sent us. We will do everything we can to merit a continuance of your patronage.

We also wish to thank you for recommending us to your friends and neighbors. We will try hard to justify your confidence in us. We never consider any transaction completed until our customers are entirely satisfied.

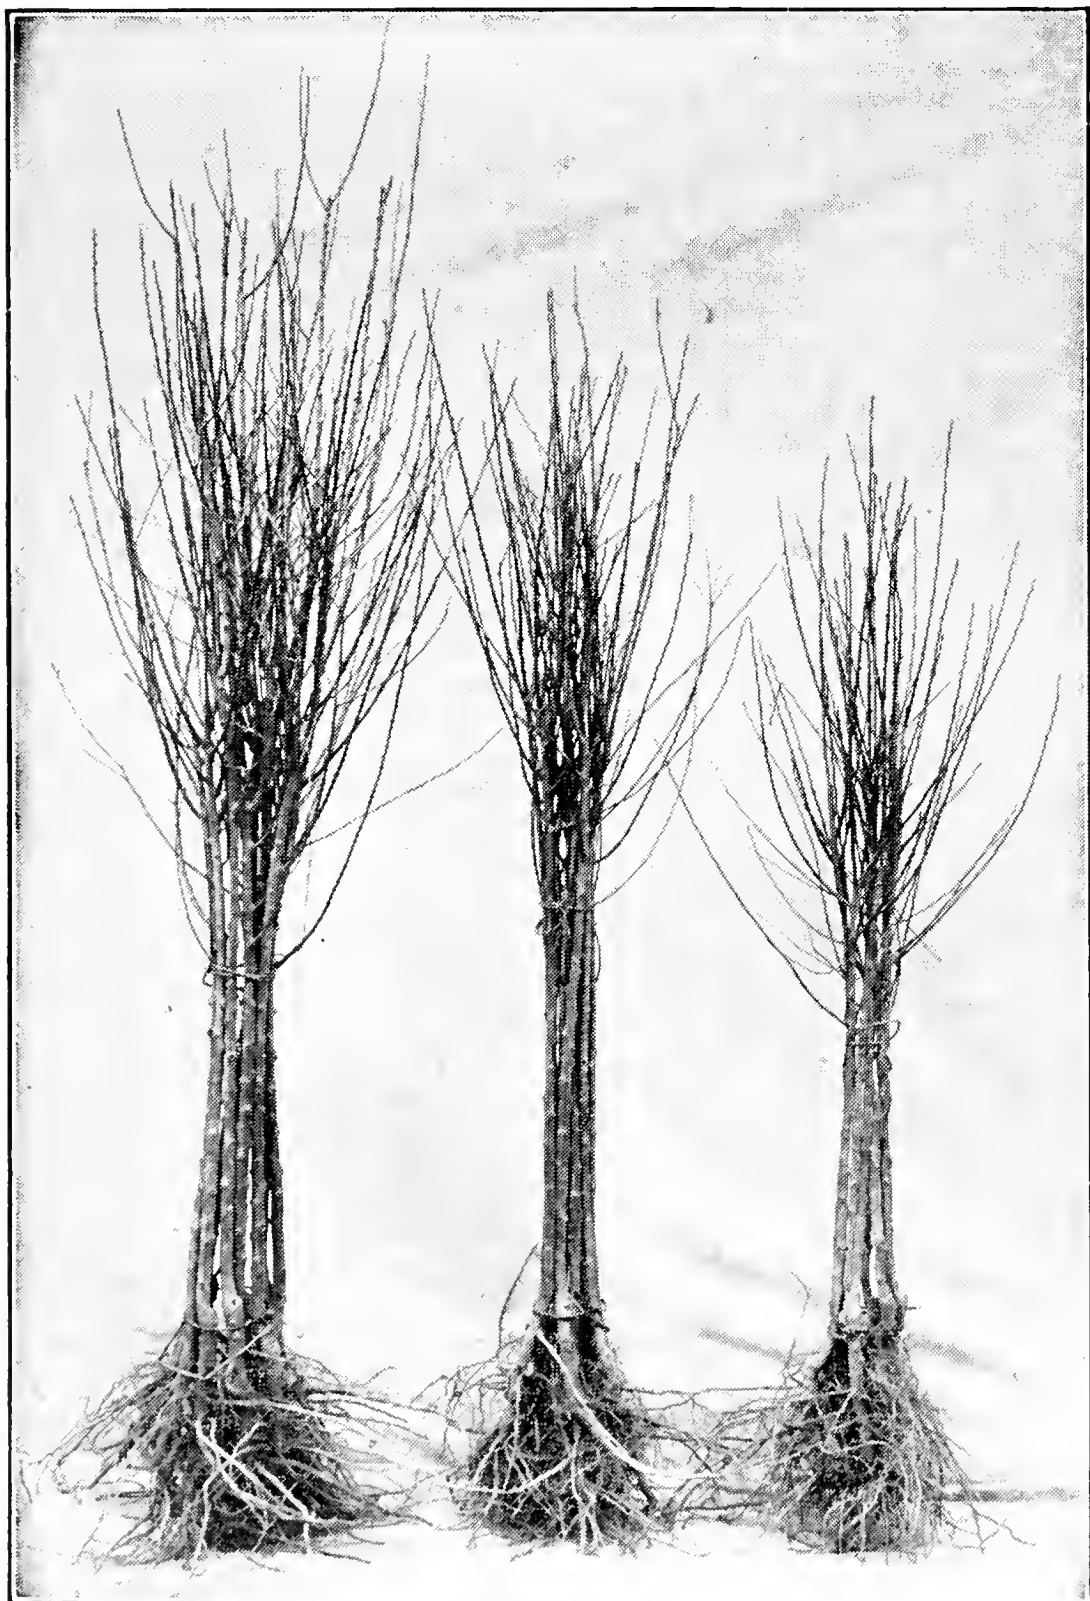

Thousands of successful commercial orchardists throughout the country will testify as to the vigor and vitality of our trees. You will find Kelly's customers in every section of the country. If you have never tried our trees, ask one of our customers in your section what our trees have done for him.

Many kinds of trees are very scarce for this season. We recommend that you place your order as early as possible. We will be glad to reserve the trees until planting time. If you want your trees shipped at any special time, kindly designate this on your order. Otherwise we will make shipment so as to reach you at the most desirable time for planting in your section.

Thanking you again for your kindness, we are

Yours very truly,

KELLY BROTHERS NURSERIES.

What Varieties to Plant

While we will be very pleased to assist you in the selection of the proper varieties to plant for your section, and to advise you on the planting and care of your trees, your State maintains a State Experiment Station which is in our opinion, better qualified to advise you on this subject than anyone else. These various State Experiment Stations are operated by a thoroughly trained and highly efficient staff of men who have made a special study of fruit growing and agriculture in general, and they will be glad to give you the benefit of their expert advice. Do not hesitate to write them. Most of the State Experiment Stations publish instructive and helpful booklets on the various phases of agriculture which they are pleased to send to any applicant. We suggest that you write your State Experiment Station for a list of the booklets that they have available. Just address your letter to "Agricultural Experiment Station," naming the city or town where the Station is located, as shown in the list below. Do not hesitate to write them. They will be more than glad to assist you.

Asparagus.....	5	ft. x 2	ft.

NUMBER OF TREES OR PLANTS PER ACRE

40 ft. x 40 ft.....	27	5 ft. x 5 ft.....	1745
30 ft. x 30 ft.....	48	5 ft. x 6 ft.....	1452
25 ft. x 25 ft.....	69	3 ft. x 7 ft.....	2074
20 ft. x 20 ft.....	108	3½ ft. x 8 ft.....	1556
15 ft. x 15 ft.....	193	4 ft. x 8 ft.....	1361
10 ft. x 10 ft.....	435	3½ ft. x 1½ ft.....	8297
7 ft. x 7 ft.....	888	5 ft. x 2 ft.....	4356
6 ft. x 6 ft.....	1210		

IMPORTANT—To find the number of trees required to plant a plot of land of any given size, first determine the size of the plot of land in square feet. Then multiply the distance between the rows by the distance between the trees in each row. This will give you the distance between the trees in square feet. Divide the number of square feet in the plot of land by the distance in square feet between the trees, and the result will be the number of trees required to plant the plot of land at the distances that you have selected. Or if you want to determine the number of trees required to plant an acre at any given distance apart, divide the number of square feet in an acre (43560) by the distance apart in square feet and the result will be the number of trees required **per acre** at the distances apart that you have selected.

Example—Size of plot of land 100 ft. x 200 ft. = 20,000 sq. ft.
Planting distance 50 ft. x 20 ft. = 1,000 sq. ft.
Divide 20,000 sq. ft. by 1000 sq. ft. = 20 trees.

Special Grade, Extra Large One Year McIntosh

The above illustration shows our Mr. William F. Kelly beside a bundle of our Special Grade One Year McIntosh apple trees. These are the finest one year McIntosh that we have ever seen. They are extra large, 5 to 6 foot trees, about $\frac{11}{16}$ in. caliper, with nice clean straight bodies, well branched tops and an abundance of healthy fiborous roots. We offer this Special Grade—Extra Large, 5 to 6 ft., One Year McIntosh at 85 cents each, \$6.50 per 10, \$50.00 per 100. Certified McIntosh of this grade 5 cents per tree extra.

We recommend the planting of one year apple trees. They stand transplanting better, make a quicker start and a more vigorous growth the first year or two and at the end of three or four years are fully the equal of 2 year old trees set at the same time.

What Others Say About Our Trees

New Paltz, N. Y., May 20, 1937.

Gentlemen: We greatly appreciate the conscientious attention that you gave our order and we will certainly give you any orders we can in the future.

Yours very truly, Melvin L. Richards.

Wilton, Conn., July 9, 1937.

Gentlemen: This is to commend you on the quality of the fruit trees you shipped me recently. They had unusually good roots and most of them are developing very robust growth this Summer.

Yours very truly, Hiram Brown.

Lehman, Pa., May 6, 1937.

Gentlemen: We received the trees and berry bushes you sent us in wonderful condition and are very proud of them.

Yours very truly, Mrs. Francis Lewis.

LaPorte, Ind., April 19, 1937.

Gentlemen: Received the shipment of trees you sent us in splendid condition. Thank you for the splendid service and the fine trees.

Yours very truly, Edward O. Craft.

Medford, Mass., June 30, 1937.

Gentlemen: I wish you could see my apple orchard set of your trees in 1926-27-28. A fine orchard coming into bearing and all true to name. Wish I had room for another hundred Cortlands.

Yours very truly, Francis V. Braun.

Chicago, Ill., March 30, 1937.

Gentlemen: We were so well pleased with the stock obtained from you two years ago that we are sending you this additional order. When we need more nursery stock we shall hope to deal with you again.

Yours very truly, John Frederick.

Chicago, Ill., March 22, 1937.

Gentlemen: Everything I received from your nursery has been so satisfactory. It all lived through draught, heat and cold. Everything is doing fine.

Yours very truly, Dr. Arminia S. Hill.

Schenectady, N. Y., October 25, 1937.

Gentlemen: Wish to thank you for the splendid condition of the trees and grape vines that you sent me. Every one grew and have made a nice growth this Summer. That is fine for a late shipment of nursery stock. Have not lost one of the lot.

Yours very truly, John L. Steward.

We have for over 50 years specialized in the growing of high quality fruit trees for the commercial orchard planting trade. We serve thousands of customers every year, and you will find orchards planted with Kelly's trees in almost every section of the country. If you desire to find out how Kelly's trees will grow in your section, drop us a line and we can undoubtedly supply you the name of some fruit grower who has an orchard of Kelly's trees growing in your section. We will be glad to have you visit the orchards of any of Kelly's customers to find out just what you can expect from any trees that you may purchase of us.

ORCHARDS OF KELLY TREES EVERYWHERE

Kelly's Inspected Apple Trees

Dr. J. K. Shaw of the Mass. Agricultural Experiment Station, a recognized authority on fruit tree varieties, has again inspected our Apple trees for trueness to name. We have on file in our office a statement issued by him that to the best of his knowledge all the salable Apple trees in Kelly Bros. Nurseries are true to name.

PRICES OF INSPECTED APPLE TREES

			Each	Ten	Hundred
2 Year	5 to 7 ft.	$\frac{3}{4}$ and up	\$.85	\$6.50	\$50.00
2 Year	4 to 5 ft.	$\frac{5}{8}$ to $\frac{3}{4}$.75	5.50	40.00
2]Year	3 to 4 ft.	$\frac{1}{2}$ to $\frac{5}{8}$.65	4.50	30.00
1 Year	3 to 5 ft.	Sturdy Buds	.75	5.50	40.00

Kelly's Certified Apple Trees

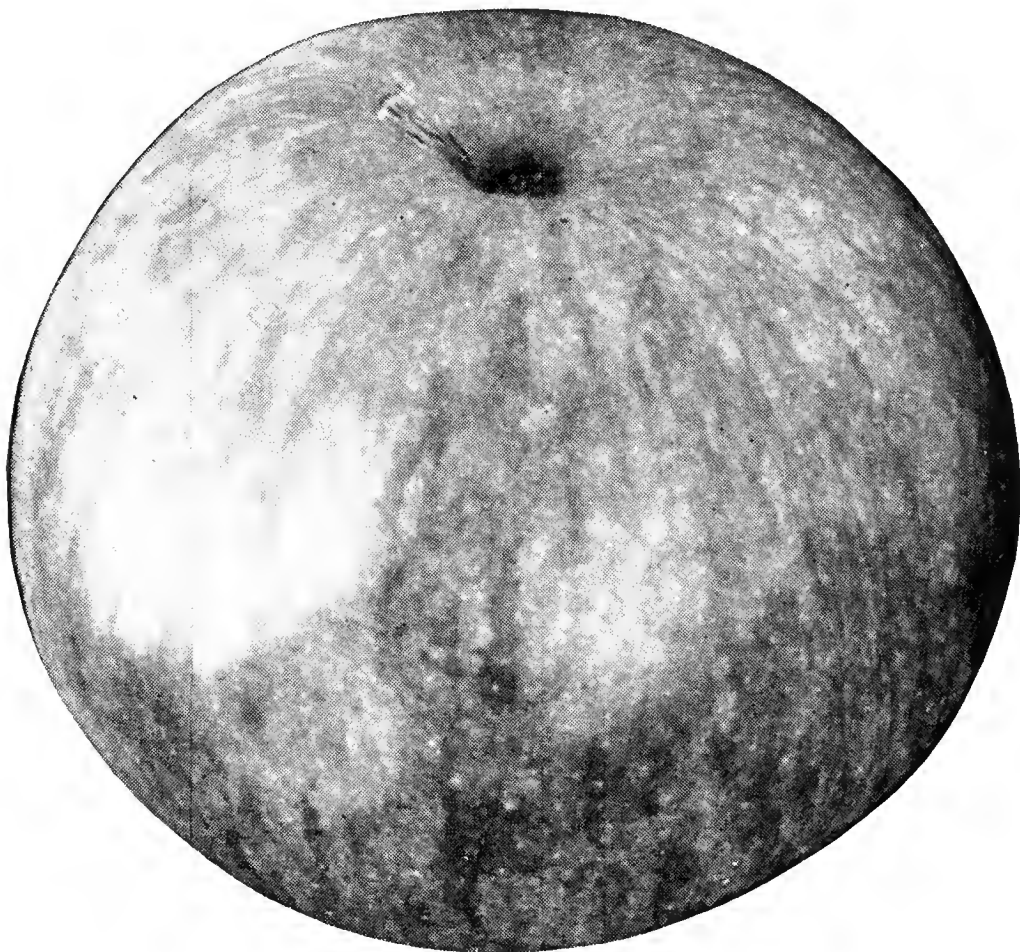

In addition to inspecting for trueness to name all of Kelly Brothers Apple Trees, Dr. Shaw has attached to some trees of each of the leading commercial varieties the Official Certification Tag of the Mass. Fruit Growers' Association. This tag bears on its face the name of the variety of fruit the tree is certified to bear and on the reverse side the official stamp of the Mass. Fruit Growers' Association. Owing to the cost of attaching Certification Tags we are obliged to make a slight additional charge for trees with Certification Tags attached.

WE CAN FURNISH THE FOLLOWING VARIETIES WITH OFFICIAL CERTIFICATION TAGS ATTACHED:

Baldwin	Early McIntosh	R. I. Greening
Cortland	McIntosh	Stayman's Winesap
Delicious	Northern Spy	Red Spy

Early McIntosh Apple

Write for Special Prices on Large Orchard Planting Quantities

SUMMER VARIETIES

- EARLY McINTOSH**—A handsome new early red apple of exceptionally fine flavor and high quality. Trees are vigorous, hardy, healthy, productive and bear annually. Ripens in August.
- EARLY HARVEST**—Large pale yellow apple of fine flavor. Good bearer. August.
- GOLDEN SWEET**—Large, pale yellow, very sweet. August.
- RED ASTRACHAN**—Handsome deep crimson apple, excellent for cooking. Hardy and a good bearer. August.
- SWEET BOUGH**—Large, pale yellow, sweet. August.
- YELLOW TRANSPARENT**—The best early yellow apple. Excellent flavor. Trees hardy and abundant bearers. August.

AUTUMN VARIETIES

- DUCHESS OF OLDENBURG**—Large red striped apple of good flavor. Very hardy. September.
- FALL PIPPIN**—Very large, yellow and juicy. Excellent for cooking. Hardy and productive. October to December.
- FAMEUSE (Snow Apple)**—Medium size, crimson with snow white flesh. Excellent quality. November.
- GRAVENSTEIN**—Large, handsome, red streaked apple of excellent quality. September to November.
- MAIDEN'S BLUSH**—Large attractive red blushed apple of fair quality. Heavy bearer. September.
- MAMMOTH BLACK TWIG**—Large deep red late keeping winter apple of good quality. December to May.
- MILTON**—A very handsome new apple of the McIntosh type. Fruit a beautiful pinkish red with tender, crisp, white flesh of excellent flavor. Trees hardy and vigorous. Ripens a month ahead of McIntosh.
- POUND SWEET (Pumpkin Sweet)**—Large yellow russeted apple. Very sweet. October and November.
- RED GRAVENSTEIN**—A new red sport, much more attractive than its parent. Differs from the old Gravenstein only in the solid dark red color of the fruit. Should be planted in place of Gravenstein.
- WEALTHY**—Beautiful, brilliant red apple of fine quality. Exceptionally hardy and an early bearer. Excellent filler. October to January.
- WOLF RIVER**—Very large, yellow striped with bright crimson. September to December.

WINTER VARIETIES

- BALDWIN**—Large, bright red. Trees vigorous and productive. A leading commercial sort in New York and New England. November to May.
- BEN DAVIS**—Large, bright red, fair quality. Excellent keeper. January to June.

We Give a Special 10 Per Cent Discount for Early Orders

If we can persuade our customers to order early, we can get all the work preliminary to shipping done before the shipping season arrives. This saves us the big expense of costly inexperienced help during the rush season. To persuade our customers to order early we allow a **Special 10 Per Cent Discount on All Orders Received by Feb. 25th, 1938, Provided Full Cash is Received With Order.**

OUR SOIL PRODUCES THE BEST

CORTLAND—A comparatively new apple of the McIntosh type that combines the high quality and flavor of the McIntosh, the ability to stand handling of the Baldwin and ability to hang to the tree of the Ben Davis. Should be planted extensively. An excellent variety to plant with McIntosh as a cross pollinator. November to February.

DELICIOUS—A large dark red apple with crisp, fine grained flesh of excellent quality and flavor. Hardy, vigorous and an annual bearer. December to February.

DOUBLE RED DELICIOUS—A very fine colored, almost solid red strain of Delicious resembling its parent in all characteristics except color. **Can furnish one year trees only.**

GANO (Black Ben Davis)—Large, dark red. January to June.

GALLIA BEAUTY—A new red sport identical with Rome Beauty except that fruit is solid red in color instead of striped.

GOLDEN RUSSET—Attractive yellow russeted apple. Long keeper. November to April.

GRIMES GOLDEN—Large golden yellow. Good quality. December to April.

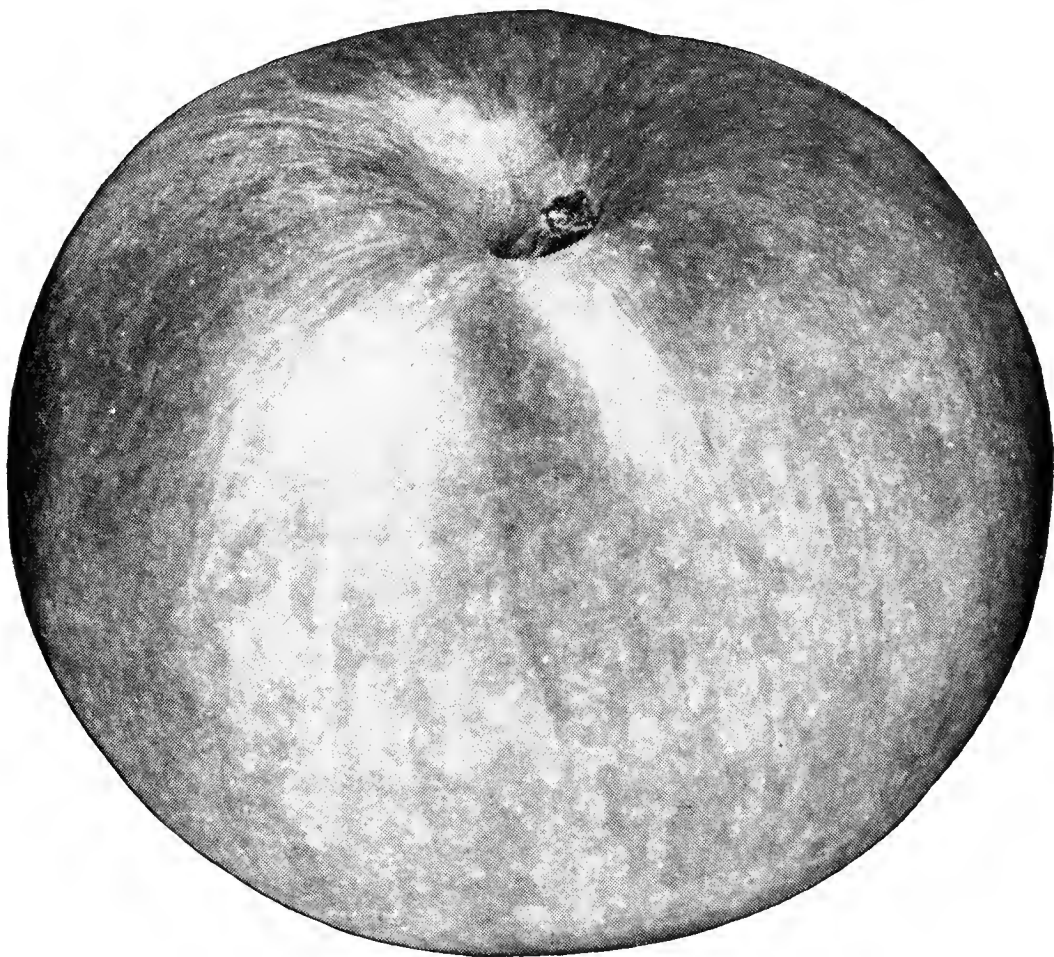

HUBBARDSTON—Yellow and red striped. Early bearer. November to March.

JONATHAN—Beautiful red apple of excellent quality. Productive and an early bearer. November to April.

KING—Large attractive red apple. November to March.

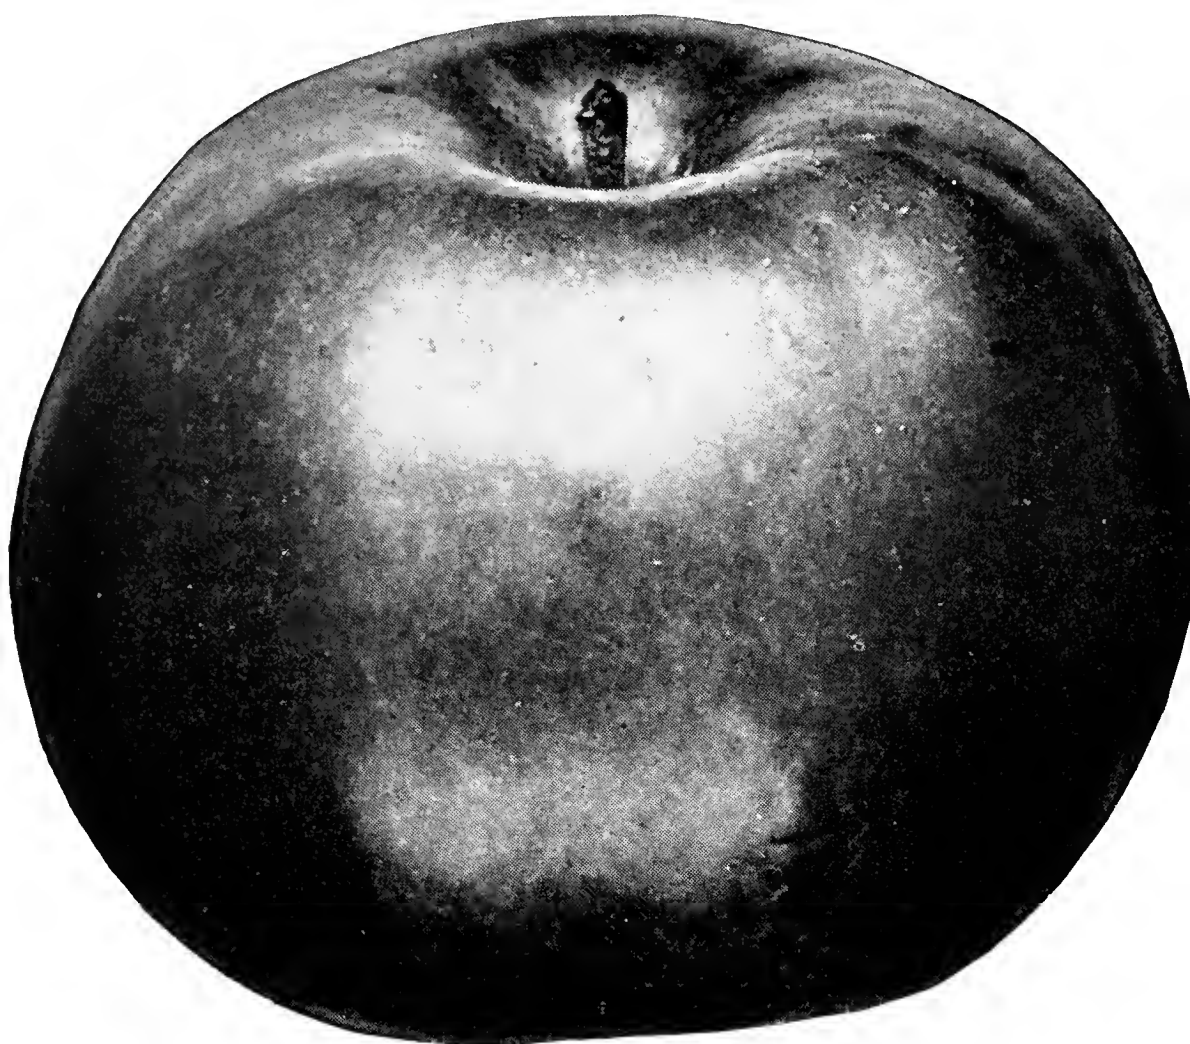

McINTOSH RED—A very attractive red apple of the highest quality. Hardy, bears young and annually. A leading, profitable, commercial sort for New York and New England. Productive. October.

NORTHERN SPY—Large red and yellow apple of fine quality. Leading commercial sort. November to April.

McIntosh Red Apple

COMPLETE SATISFACTION GUARANTEED

Cortland Apple

NORTHWESTERN GREENING—Large, yellowish-green apple. Vigorous and hardy. October to March.

OLD WINESAP—Medium size dark red apple of good quality. Bears early, abundantly and regularly. December.

OPALESCENT—Very handsome dark crimson apple. December to March.

RHODE ISLAND GREENING—Large yellowish-green apple of fine quality. An abundant yielder and excellent keeper. One of the leading commercial sorts. November to March.

RED SPY—A new red sport identical with Northern Spy except that the fruit is a solid bright red. Much handsomer than its parent. An excellent commercial sort.

RAMBO—Red and yellow. Hardy and productive. October to December.

ROME BEAUTY—Yellow and red striped apple of excellent quality. Prolific annual bearer. Profitable commercial sort for New York, Ohio, Pa., and W. Va. December to May.

RED ROME—Another new red sport of Rome Beauty and like Gallia Beauty is identical with its parent in all characteristics except fruit is a solid red in color.

ROXBURY RUSSET—Yellow, russeted apple of excellent quality. December to June.

YELLOW DELICIOUS—A bright golden yellow apple of excellent quality. Splendid keeper.

SMOKEHOUSE—Yellow, mottled with dark red. October to March.

SPITZENBURG—High flavored, dark red. November to April.

STARK—Large, red and yellow striped. January to May.

STAYMAN'S WINESAP—Yellow striped with red. Excellent quality. Productive and an early bearer. December to March.

TOLMAN SWEET—Yellow tinged with red. Very sweet. Hardy and productive. November to April.

TWENTY OUNCE—Very large, red and yellow striped. October to January.

WAGENER—A bright light red apple of excellent quality. Very productive. October to January.

WINTER BANANA—Beautiful pale yellow apple with bright pinkish blush. Excellent quality. Prolific and an early bearer. November to March.

YORK IMPERIAL—Yellow striped with light red. Quality very good. December to February.

Crab Apples

HYSLOP—Large, brilliant dark red. Hardy, reliable cropper. September and October.

TRANSCENDENT—Bright yellow with bright red cheek. Productive. August and September.

New Varieties

Recommended by New York State Experiment Station.
Can furnish only in one year old trees.

Prices—One Year—Sturdy Buds—3 to 5 Ft.
95 Cents Each—\$7.50 per 10—\$60.00 per 100

KENDALL—A comparatively new McIntosh seedling. Handsomely colored solid dark red. Fruit large with fine grained whitish flesh. Excellent quality and flavor. Ripens about same time as McIntosh. Productive and a good keeper. October.

MACOUN—A late McIntosh type apple ripening about a month later than McIntosh. Dark red with whitish close grained flesh. Fine quality. A heavy and regular bearer. November.

MEDINA—An improved Delicious, ripening later and prolonging the season of that variety. Larger and more attractive than Delicious.

ORLEANS—Another apple of the Delicious type ripening about same time as Delicious but a longer keeper, more attractive and larger fruit. Bears early, annually and heavily.

DOLGO CRAB—A handsome hardy red crab apple. Vigorous and productive. Very juicy, jellies easily, and makes a rich, ruby red jelly of beautiful color and excellent flavor. Makes exceptionally good cider. Early September.

Peach Trees

We have always been large growers of extra fine Peach trees and this year we have one of the largest and finest blocks of Peaches we have ever grown. Our trees can absolutely be depended upon to produce fruit of the variety for which they are sold. All buds used in propagating originated from bearing trees and the buds were cut while the fruit was still on the trees. Careful supervision has kept our Peach blocks free from any possible mixture of varieties.

Prices of Peach Trees

				Each	Ten	Hundred
1 year	4	to 5 ft.	9/16 and up	\$.55	\$4.00	\$30.00
1 year	3	to 4 ft.	7/16 to 9/16	.50	3.50	25.00

Early August.

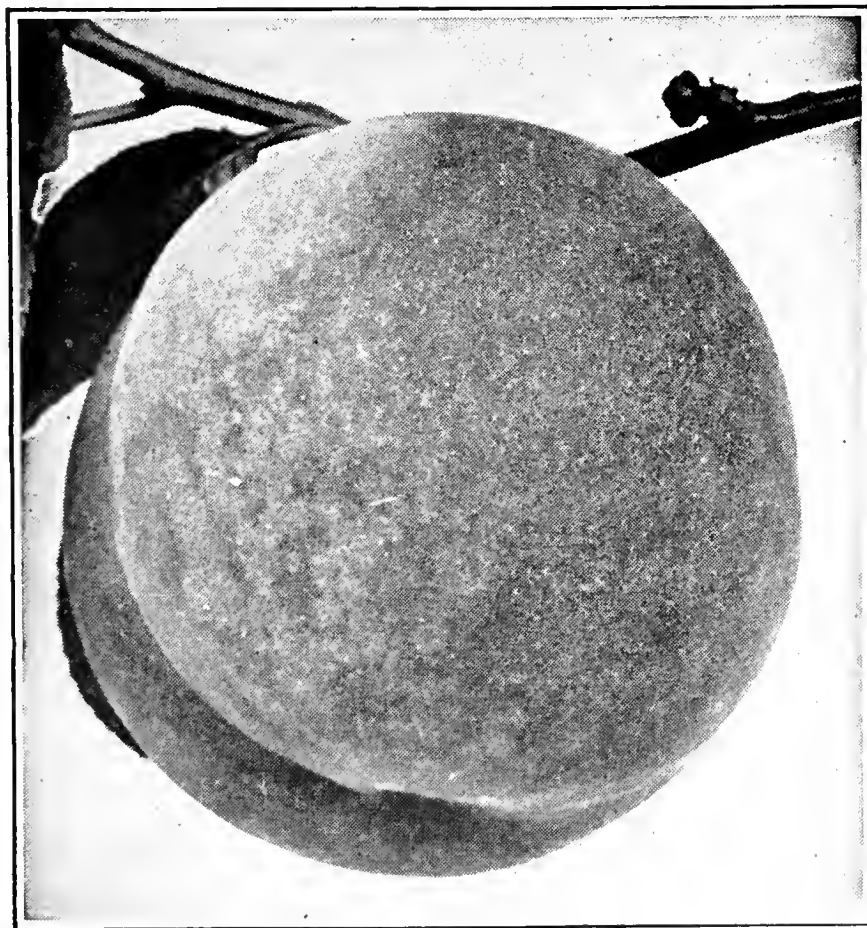

GREENSBORO—Large, bright red over yellow, flesh white.
Good quality. Freestone. Late August.

MARIGOLD—Early yellow, excellent quality, semi-cling.
Late August.

ORIOLE—A new early peach of high quality. Fruit medium to large in size, yellow fleshed, and a freestone. Trees vigorous and productive. Early September.

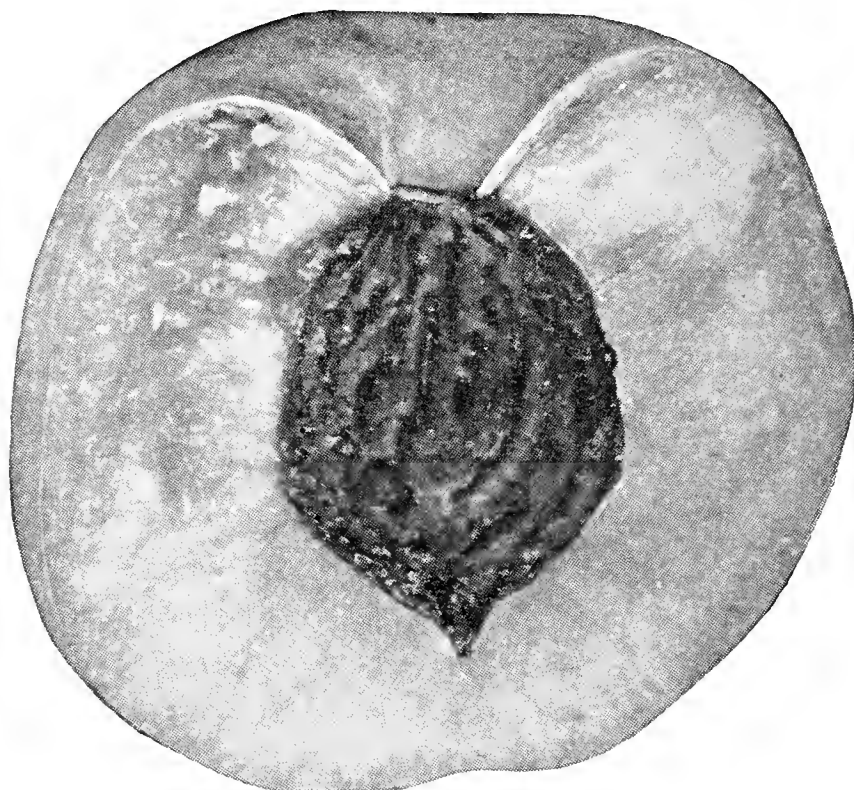

GOLDEN JUBILEE—A new early yellow freestone peach of excellent quality. Early September.

CARMAN—Large, white fleshed peach of fine quality. Very hardy and productive. Freestone. Early September.

Elberta Peach

Write for Special Prices on Large Orchard Planting Quantities

J. H. Hale Peach

VARIETIES LISTED IN ORDER OF RIPENING

ROCHESTER—A comparatively new extra early peach of the highest quality and most delicious flavor. Large yellow, with attractive red blush. A very fine canner, prolific and an early bearer. Freestone. Early September.

YELLOW ST. JOHN—Medium size. Orange yellow with red blush. Freestone. Early September.

VALIANT—Large, yellow, freestone, juicy, very good quality. Productive. Early September.

SOUTH HAVEN—Another excellent new peach well worth planting. Golden yellow with red blush. Large, meaty and of delicious flavor. Prolific. Freestone. Early September.

HALE-HAVEN—A splendid large new yellow freestone peach and exceptionally good color and flavor. Exceptionally hardy and productive. Early September.

HILEY BELLE—Large white peach with bright red cheek. Rich and juicy. Excellent shipper. Freestone. Early September.

VETERAN—Large, round, yellow, freestone. Excellent quality. Early September.

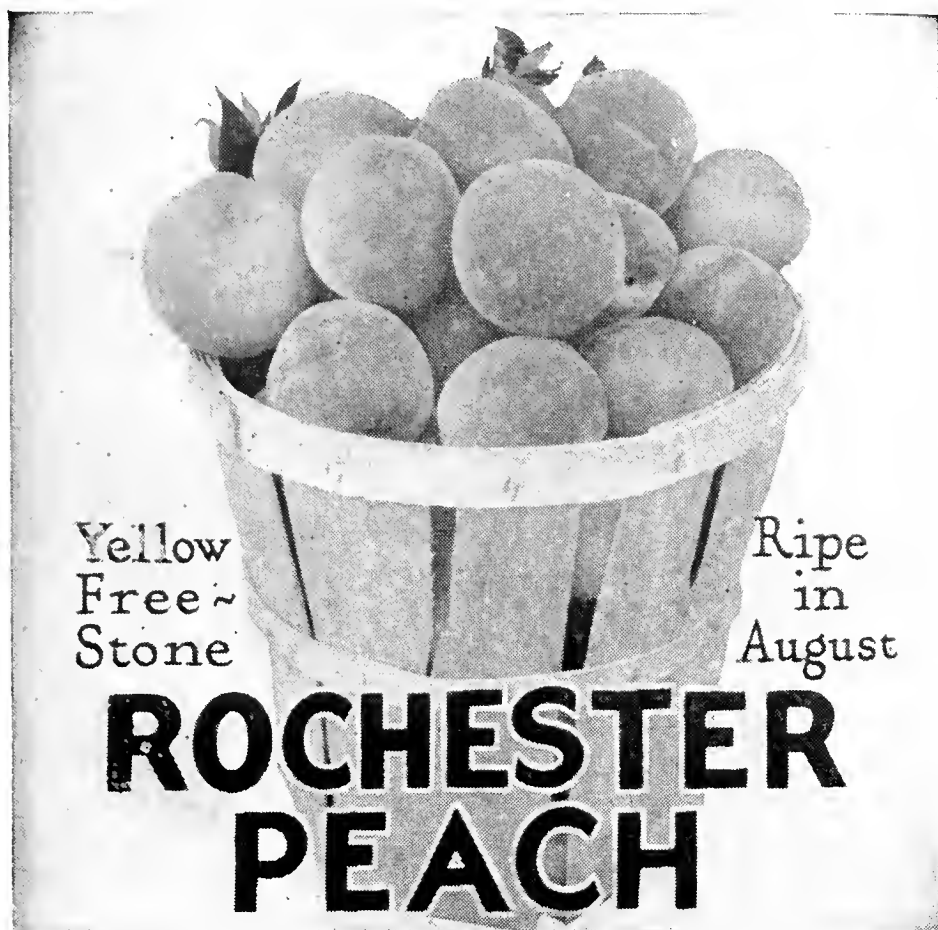

FITZGERALD—Very hardy. Large, brilliant yellow with red cheek. Early bearer. Freestone. Middle September.

CHAMPION—Large creamy white with red cheek. Excellent quality. Good shipper. Hardy and productive. Freestone. Middle September.

BELLE OF GEORGIA—Large, attractive white fleshed peach. Red cheek. Hardy and productive. Freestone. Middle of September.

CRAWFORD'S EARLY—Large yellow peach of the finest quality and flavor. Freestone. Middle of September.

NIAGARA—Large yellow peach of Early Crawford type. Juicy and tender—very good in quality. Middle September.

VARIETIES LISTED IN ORDER OF RIPENING

EARLY ELBERTA—An excellent new variety resembling Elberta very closely, except a little rounder in shape and about ten days earlier in ripening. Freestone. Middle September.

RAY—An attractive white peach with red blush. Excellent quality and a good shipper. Freestone. Late September.

ELBERTA—The greatest commercial variety on the market. Will thrive where any peach can be grown. A uniform cropper. Large, yellow with red cheek, juicy and excellent quality. Freestone. Late September.

J. H. HALE—An extra large peach, yellow overlaid with crimson. Flesh golden yellow, of delicious flavor. An excellent shipper. A fine commercial variety. Prolific when cross pollenized with some other variety. All of the varieties offered in this catalog are suitable for planting with Hale. Freestone. Late September.

WILMA—An offspring of Elberta ripening 10 days later. Large, freestone—good quality. Late September.

CHAIRS CHOICE—Deep yellow with red cheek. Freestone. Early October.

SMOCK (Beer's Smock)—An excellent late peach. Yellow. Good quality. Freestone. Early October.

SALBERTA—Large Elberta type, late peach of good quality. Freestone. Early October.

CRAWFORD'S LATE—One of the finest late varieties. Large, yellow, of excellent quality. Freestone. Early October.

SALWAY—Large, deep yellow, red cheek. Freestone. Early October.

GROWN BY EXPERIENCED MEN

Sour Cherry Trees

We are one of the largest producers of Cherry trees in the United States. Fifty-eight years' experience—ideal soil and climatic conditions all combine to produce the finest to be had in Cherry trees. Cherry growers made good money on their cherries last year, receiving from 4½ to 5 cents per pound for the fruit. The demand for young cherry trees for planting this year is unusually heavy, but there is no chance of an over planting for a year or two at least as cherry trees are and will be very scarce for at least another year.

Prices of Sour Cherry Trees on Mahaleb Roots

			Each	Ten	Hundred
2 year	5 to 6 ft.	¾ and up	\$.85	\$6.50	\$50.00
2 year	4 to 5 ft.	⅝ to ¾	.80	6.00	45.00
2 year	3 to 4 ft.	½ to ⅝	.75	5.50	40.00
1 year	3 to 5 ft.	Sturdy Buds	.80	6.00	45.00

Sour Varieties

DYEHOUSE—Ripens a week ahead of Early Richmond. The earliest good sour cherry. Early June.

EARLY RICHMOND—Exceedingly hardy and productive. Ripens through June.

ENGLISH MORELLO—Large, blackish red cherry ripening in July. Hardy and productive.

LARGE MONTMORENCY—By far the leading commercial variety. Good grower, very productive, and an excellent shipper. Bright, clear attractive red. Ripens 10 days after Early Richmond. Late June.

MAY DUKE—A very early dark red cherry of good quality. Very hardy. June.

OLIVET—Large, deep red. Ripens in June.

OSTHEIM—Large, dark red. Almost sweet. Hardy. Late July.

Large Montmorency Cherries

Write for Special Prices on Large Orchard Planting Quantities

Sweet Cherry Trees

We strongly recommend the planting of one year old sweet cherry trees. We know from over fifty years' experience that one year old cherries transplant much more successfully than two year old trees. Having a more complete root system in proportion to the top they withstand the shock of transplanting better, make an earlier start and a much more vigorous growth the first two or three years after planting. This year we are offering sweet cherries in one year old trees only.

Prices of Sweet Cherries

On Mahaleb Roots—1 year old—4 to 5 ft.—Sturdy Buds
90 cents each; \$7.00 per 10; \$55.00 per 100.

On Mazzard Roots—1 year old—4 to 5 ft.—Sturdy Buds
95 cents each; \$7.50 per 10; \$60.00 per 100.

Sweet Varieties

BLACK TARTARIAN—Very large, bright purplish black. Juicy and rich. An immense bearer. June.

BING—Large, dark brown, of fine quality. Hardy and vigorous. July.

GOVERNOR WOOD—Large, yellow marbled with light red. Sweet and rich. Productive. June.

LAMBERT—Very large, purplish red. Firm and rich. Very productive. Late July.

NAPOLEON (Royal Ann)—Large, pale yellow with bright red cheek. July.

SCHMIDT'S BIGGAREAU—Very large, deep mahogany color. Very juicy. July.

WINDSOR—Large, very dark red, firm and rich. July.

YELLOW SPANISH—Pale yellow with bright red cheek. Productive. June.

Napoleon Cherries

GROWN ON BEST WHOLE-ROOT STOCK

Standard Pear Trees

Prices of Standard Pear Trees

			Each	Ten	Hundred
2 year	5 to 7 ft.	$\frac{3}{4}$ and up	\$.85	\$6.50	\$50.00
2 year	4 to 5 ft.	$\frac{5}{8}$ to $\frac{3}{4}$.80	6.00	45.00
2 year	3 to 4 ft.	$\frac{1}{2}$ to $\frac{5}{8}$.75	5.50	40.00

Raspberries

Prices—All Varieties Except Newburg and Columbian
\$1.35 per 25, \$3.50 per 100, \$25.00 per 1000

CHIEF (Red)—The finest early red raspberry for general planting. Large, firm and a very heavy yielder. Ripens 10 days before Latham.

CUTHBERT (Red)—Large, crimson, hardy and prolific. Fine for market or garden. Excellent quality. Midseason.

CUMBERLAND (Black)—Large, glossy black, firm, of excellent quality. Hardy and productive. Early to midseason.

COLUMBIAN (Purple)—A fine commercial sort. Vigorous, very productive, excellent canner. Fruit large, purple, firm. Midseason. **Prices—\$1.50 per 25, \$4.00 per 100, \$30.00 per 1000.**

LATHAM (Red)—Large, round, firm, brilliant red. Most profitable commercial variety. Hardy, very prolific, an excellent shipper and a perfect variety for canning. Early. Ripens evenly over a very long season.

NEWBURG (Red)—A new variety of excellent color and quality. Very large and firm. Fine keeper and shipper. Vigorous, hardy and very productive. Three or four days earlier than Cuthbert. **Prices—\$1.50 per 25, \$4.00 per 100, \$30.00 per 1000.**

PLUM FARMER (Black)—One of the best commercial sorts. Berries large, thick meated, firm. Very productive. Early midseason.

ST. REGIS (Everbearing)—A bright crimson berry of excellent quality. Fruit commences to ripen with the earliest and continues to ripen on young canes until October.

VIKING—A new, very hardy red raspberry of excellent quality. Fruit large, bright red. Very thrifty grower.

Gooseberries

Plant in good rich soil 3 to 4 feet apart.

Prices of Extra Size Two Year Bushes: 35c each, \$3.00 per 10, \$20.00 per 100

DOWNING—A medium size whitish green gooseberry, of good quality. Strong, upright grower and quite prolific. Midseason.

RED JACKET—JOSSLYN—Light red, medium size, excellent quality. Vigorous upright grower, healthy and productive. Early.

Rhubarb—Pieplant

Excellent for pies or sauce, and very desirable for canning. Plant 3 or 4 feet apart in rich garden soil.

Prices of Extra Strong Two Year Roots: 20c each, \$1.75 per 10, \$10.00 per 100

MYATTS LINNEAUS—The best known and most widely planted variety. Large, early, tender—not the least tough or stringy—with mild subacid flavor.

Blackberries

Prices \$1.50 per 25, \$4.50 per 100, \$30.00 per 1000.

BLOWERS—Large glossy jet black, firm and delicious. Very hardy and enormously productive. Long ripening season.

ELDORADO—Very large, jet black. Sweet and delicious with no hard core. Very hardy and vigorous.

Asparagus

Prices—Extra Strong, 2 year,
60c per 25, \$1.75 per 100, \$10.00 per 1000.

CONOVERS COLOSSAL—A large size standard variety of excellent quality.

PALMETTO—Very early, even-growing, of good quality.

WASHINGTON—By far the best variety. Large size, rapid growing, very productive, rust resistant.

Currants

WILDER—An unsurpassed commercial sort. Bunches and berries very large, bright attractive red. Hang on bushes well and of excellent quality. Productive. Prices—Extra Strong, 1 year bushes, \$2.50 per 10, \$15.00 per 100. Write us for special prices on large quantities.

Strawberries

The following two recent introductions of the U. S. Department of Agriculture Dorset and Fairfax are considered by most strawberry growers as superior to other standard varieties both for home and commercial use.

Prices—25 plants 50c, 50 plants 75c, 100 plants \$1.00,
500 plants \$4.50, 1000 plants \$8.00.

DORSET—An extra early self pollenizing offspring of Premier. Plants are large and healthy, withstanding drought, excessive rains and frost better than any other standard variety. Does well on poor soil. Berries large, evenly matured, light bright red. Excellent for market or home use.

FAIRFAX—Another excellent new variety ripening early, about same time as Premier. Very vigorous and a fine plant maker. Withstands adverse conditions well and ripens evenly over a long period of ripening. Berries large and very attractive. Every strawberry grower should set Dorset and Fairfax.

PREMIER—An early, productive variety of unsurpassed quality. Vigorous and healthy.

Strawberry Plants Cannot Be Shipped By Freight.

COMPLETE SATISFACTION GUARANTEED

Flowering Shrubs

Prices (except as noted)—Strong Two Year Bushes,
2½ to 3 ft., 35c each, \$3.00 per 10

ALTHEAS, DOUBLE—Bloom freely from midsummer until frost. We offer double flowering varieties in Purple, Red, White and Pink.

BEAUTY BUSH—Beautiful bell shaped pale pink flowers during June in great profusion. Price—2½ to 3 ft., 50c each, \$4.50 per 10.

BUTTERFLY BUSH—Beautiful lilac covered flowers from June to frost.

DEUTZIA, DOUBLE FLOWERING—Double white flowers tinged with rose.

DEUTZIA, GRACILIS—Dwarf growing. White flowers in June. Price—18 to 24 in. 50c each, \$4.50 per 10.

DEUTZIA, PRIDE OF ROCHESTER—Double white flowers tinged with rose in May.

FORSYTHIA FORTUNEII—Yellow flowers in April. A drooping form more upright than Suspensa with heavier darker foliage. Price—2½ to 3 ft., 25c each, \$2.00 per 10.

FORSYTHIA INTERMEDIA—Large beautiful golden yellow flowers in great profusion in April. Semi-upright. Price—2½ to 3 ft., 25c each, \$2.00 per 10.

FORSYTHIA SUSPENSA—A full drooping type with golden yellow flowers in April. Price—2½ to 3 ft., 25c each, \$2.00 per 10.

FORSYTHIA VIRIDISSIMA—An upright grower with beautiful yellow flowers in April before the leaves appear. Price—2½ to 3 ft., 25c each, \$2.00 per 10.

HYDRANGEA ARBORESCENS (Everblooming Snowball Hydrangea)—Beautiful ball shaped clusters of pure white flowers from July to Sept. Price—2½ to 3 ft., 50c each, \$4.50 per 10.

HYDRANGEA P. G.—Immense cone shaped clusters of pink and white flowers turning to bronze in autumn. Price—2½ to 3 ft., 50c each, \$4.50 per 10.

HYDRANGEA, TREE FORM—The Hydrangea P. G. grown in tree form with a single stem. Price—4 to 5 ft., 75c each, \$7.00 per 10.

INDIAN CURRANT (Coralberry or Red Snowberry)—Rose colored blossoms in June and July followed by dull red coral colored berries.

JAPAN QUINCE—Completely covered with dazzling scarlet flowers in May. 18 to 24 in.

PEARL BUSH—One of the showiest Summer flowering shrubs. Early buds look like pearls strung on slender threads, opening in May to sprays of pure white flowers.

SPIREA ANTHONY WATERER—Dwarf growing. Deep pink blossoms late in June. 18 to 24 in.

SPIRAEA CALLOSA ROSEA—Deep rosy blossoms nearly all Summer.

SPIRAEA GOLDEN—Bright yellow foliage changing to golden bronze in Fall.

SPIRAEA KOREAN—A very handsome new variety with flowers larger than Van Houttei.

SPIRAEA PRUNIFOLIA—Profusion of double white flowers in May. Price—2½ to 3 ft., 50c each, \$4.50 per 10.

SPIRAEA THUNBERGII—Dense feathery foliage with clusters of white flowers early in Spring.

SPIRAEA VAN HOUTTEI—Without question the most popular attractive and generally useful of all shrubs. Very beautiful when planted as single specimens on the lawn or massed in groups close to the home as a foundation planting. Planted 2 to 3 feet apart it makes a hedge of surpassing grace and beauty. Grows 4 to 6 feet high. The white flowers are in flat clusters, usually an inch or more across, produced in May on spreading pendulant branches, often drooping to the ground. The foliage is attractive green which is held until frost. Easy to grow. Will thrive under almost any conditions. When in doubt plant Spiraea Van Houttei. We offer extra large blooming size bushes 4 to 5 feet high. Each plant is a specimen. Prices, 25c each, \$2.00 per 10, \$15.00 per 100.

Spiraea Van Houttei

SNOWBERRY—Waxy milk white berries which remain all Winter.

SNOWBALL—Globular clusters of white flowers in late May. Price—2½ to 3 ft., 50c each, \$4.50 per 10.

ORIENTAL PLANE (European Sycamore)—A rapid growing, lofty, wide spreading tree. Very desirable for street planting. 8 to 10 ft., \$1.75 each, 10 to 12 ft., \$2.25 each.

Catalpa Bungeii—Umbrella Tree

Choice Everblooming Monthly Roses

Their long blooming season begins in June and continues until frost. Require protection over Winter in the extreme North. This protection consists of simply mounding up each bush with a mound of earth 8 or 10 inches high. Should be planted from 1½ to 2 feet apart.

Prices, Strong 2 Year Bushes, 45 cents each; \$4.00 per 10.

AMERICAN BEAUTY—A very fine dark pink rose shaded with carmine. One of the best.

BETTY UPRICHARD—Semi-double salmon pink stained with copper pink on outside. A novelty rose and very popular.

COLUMBIA—A beautiful glowing pink rose. A strong grower and a very free bloomer. Almost thornless. One of the most popular sorts.

DAME EDITH HELEN—A pure glowing pink rose without any shadings or markings. The most highly perfumed of all pink roses.

EDITOR McFARLAND—A very brilliant pink rose of excellent shape and color.

E. G. HILL—Beautiful buds on long stems which open into large full, fragrant crimson blooms.

ETOILE DE FRANCE—Clean red to velvety crimson. One of the most charming red roses.

FRANCIS SCOTT KEY—Large extremely double flowers of rich crimson.

FRAU KARL DRUSCHKI (Snow Queen)—Pure snow-white. A continuous bloomer.

GRUSS AN TEPLITZ—Dazzling scarlet, always in bloom, a great bedder.

INDEPENDENCE DAY—A brilliant orange-copper rose that blooms continuously.

JOANNA HILL—A lovely golden yellow cutting rose.

KAISERIN AUGUSTE VICTORIA—Soft, pearly white shading to cream.

LOS ANGELES—Luminous flame-pink color; washed with gold at the base; fragrant.

MARGARET McGREDY—The lovely flowers are a brilliant shade of turkish or oriental red. One of the best.

MME. BUTTERFLY—A harmony of bright pink, apricot and gold.

MME. EDOUARD HERRIOT—Long pointed, deep, coral-red buds, changing to a pleasing orange pink color.

MRS. AARON WARD—Pointed buds of a rich yellow color, changing to a creamy yellow color after opening.

MRS. CHAS. BELL—Soft shell pink tinged salmon, like a pearl. Strong vigorous grower, always in bloom, a very fine rose. Fragrant.

PRES. HERBERT HOOVER—A glorious rose of vivid, cerise-red toned with yellow, orange and scarlet, richly perfumed and free flowering.
